Skilled in translating business requirements into maintainable software, collaborating with cross-functional teams, and building products that support business growth.

TECHNICAL SKILLS

- **Language:** JavaScript, TypeScript, PHP, HTML5, CSS3
- **Frontend:** Next.js, React, Angular, Tailwind CSS
- **Backend:** Node.js, Express.js, Supabase
- **Database:** Supabase (PostgreSQL), MongoDB

PROFESSIONAL EXPERIENCE

Software Developer

Stairpay

Feb 2025 - Apr 2026 · 1 yr 3 mos

London Area, United Kingdom · Remote

- Developed reusable affordability calculators and signup plugins using Next.js, TypeScript, and Supabase, enabling prospective residents to assess affordability, explore Shared Ownership, and register interest online.
- Built and maintained a Resident Portal using Next.js and Supabase, enabling residents to self-serve documents, payments, affordability checks, and property information through a centralized platform.
- Developed a centralized Listings Management Platform using Next.js and Supabase, allowing Housing Associations to manage property listings, applicants, eligibility checks, and analytics more efficiently.
- Collaborated with product managers and designers in an Agile environment to deliver new features, improve existing functionality, resolve production issues, and maintain code quality through peer reviews.

Software Developer

Twenty7tec

Oct 2021 - Jan 2025 · 3 yrs 4 mos

London Area, United Kingdom · Remote

- Developed and maintained a large-scale communication platform using Angular, Node.js, MongoDB, and Serverless, enabling clients to deliver email, SMS, and WhatsApp campaigns.
- Built drag-and-drop email and message template builders with campaign scheduling for immediate, recurring, and date-based delivery.
- Developed reusable React and Next.js web plugins, including mortgage calculators, insurance calculators, and calendar widgets, customized for client branding and deployed with AWS Amplify.
- Collaborated with cross-functional teams across multiple countries to deliver high-quality software on schedule.

Software Developer

Captivate Chat

Jun 2018 - Nov 2021 · 3 yrs 6 mos

London Area, United Kingdom · Remote

- Trained in developing conversational AI solutions using IBM Watson Assistant.
- Built and maintained an embeddable chatbot widget for client websites using MongoDB, Express.js, Node.js, and Angular, later migrating the frontend to React.
- Developed and maintained a web-based chat platform using MongoDB, Express.js, Node.js, and Angular, later transitioning the frontend to React, enabling clients to monitor and manage live chatbot conversations.
- Built and maintained WordPress and Shopify websites, implementing custom features, theme enhancements, and performance optimizations.

Software Developer

Siro Solutions

Sep 2017 - Sep 2018 · 1 yr 1 mo

Austin, Texas, United States · Remote

- Trained in custom WordPress theme development and WordPress development best practices.
- Built and customized responsive WordPress websites using Divi, Elementor, and custom HTML, CSS, JavaScript, and PHP based on client designs and functional requirements.
- Collaborated directly with existing clients to understand change requests, implement website enhancements, and deliver bug fixes and new features in a timely manner.
- Supported the delivery of multiple client projects, helping the company expand its development capacity and meet growing client demand.

EDUCATION

Bachelor of Science in Information Technology, Major in Web Development

University of Cabuyao

April 2017
